

Year 3/4 Homework Grid

Please spend quality time with your child completing some activities on this grid. There are 6 activities in total to work through; we expect your child to complete **at least 1 activity from each box by Friday 24th October**. All activities have 3 'layers' that learners can choose to complete. For example they can choose the must, should or could statement for each activity—or even complete them all!

Languages, Literacy and Communication

Could: Write a non-chronological report all about yourself, including hobbies, dreams, and future goals.

Should: Write a short poem or acrostic about your name or identity.

Must: Write 5 words in English and Welsh that describe you.

Mathematics and Numeracy

Could: Create your own Times Table pop song (check out YouTube for some examples!)

Should: Create a poster of your chosen times table to help others learn it as well. We can display these in class.

Must: choose a times Table that you would like to get better at and practise until you can do it without any help. You could film yourself being tested by family or friends.

Health and Wellbeing

• **Could:** Write a short guide for others about how to look after their wellbeing (including exercise, kindness, sleep, or friendship).

• **Should:** Create a "Wellbeing Shield" with 4 sections: something I enjoy, someone who helps me, a place I feel safe, and something I am proud of.

• **Must:** Draw a picture of something that makes you feel happy.

Share your homework on your own Seesaw and put it in the correct folders. Or bring it into school to show.

Expressive Arts

Could: Compose a simple piece of music, rap, or performance about "me and my world."

Should: Create a short dance or sequence of movements that represent things you enjoy.

Must: Draw a self-portrait with colours that show your feelings.

Science and Technology

Could: Make a simple presentation, model, or poster about how to keep your body healthy and growing.

Should: Create a fact page about the human body (e.g. 5 facts about bones or muscles).

Must: draw your favourite healthy meal. Make sure you label it with the different food groups

Humanities

Could: Research and present how your family, local area, or culture has changed over time.

Should: Create a family tree or timeline showing important events in your life so far.

Must: Draw a map showing where you live. It could be a map of the country, a map of the town or a map of the street.
